<sup>2</sup> Section 1.3 of the Guidelines for Applicants

<sup>3</sup> Section 2.1.2 (a) in the Guidelines for Applicants

<sup>4</sup> Section 2.1.2 (c) in the Guidelines for Applicants

# 1.2. Information on the Lead Applicant

Name of the Lead Applicant	Jakubova Vola village Jakubová Voľa
Legal status⁵	Public
Postal address	Pečovská Nová Ves Jakubova Vola 67 082 56 Slovakia
Telephone/fax	+421911382666
Email	starosta@jakubovavola.sk
Contact person and position within the organization/ institution:	Ms. Magdaléna Sasaráková mayor of the village
Mobile and e-mail of the contact person	+421911382666 starosta@jakubovavola.sk
Website of the Lead Applicant	

<sup>5</sup> Section 2.1.1 (1) in the Guidelines for Applicants. The statutes must make it possible to ascertain that the organisation was set up by an act governed by the national law of the country concerned (Hungary, Slovakia, Romania and Ukraine). In this respect, any legal entity whose statutes have been established in another country cannot be considered as an eligible local organisation

### 1.3. Information on the other Applicants

Name of Applicant 1	Velykobereznianska selyshchna rada Velkyj Bereznyj village council		
Country of registration of Applicant 1	Ukraine		
Name of Applicant 2	Blahodiinyi fond "Tsentr hromadskykh initsiatyv" Charitable Foundation "Center for Civic Initiatives"		
Country of registration of Applicant 2	Ukraine		

### 1.4. Summary of the Project

Location of the project activities	Lead Applicant - Jakubova Vola , Slovakia, Prešovský samospávny kraj, Jakubova Vola Applicant 1 - Velkyj Bereznyj , Ukraine, Zakarpattia, Velkyj Bereznyj Applicant 2 - CF CCI, Ukraine, Zakarpattia, Perechyn
Nature of the project <sup>6</sup>	Integrated Project
Type of the action <sup>7</sup>	Soft with infrastructure component
Duration of the project (months) <sup>8</sup>	30
Project overview	The project is aimed at promoting local culture and preserving cultural heritage. Its main objective is to preserve the traditions and cultural heritage typical for the Slovak-Ukrainian border. Infrastructure renewal will create the suitable conditions for the presentation and dissemination of places of tradition and cultural heritage. Thanks to cross-border exchanges and joint cultural events, people will learn more about cultural heritage and traditions. New friendships and relationships between the people of each partner will be created. Thanks to the implementation of this project, we expect an increase in the interest in cultural heritage because cross-border activities will cover a much larger target group of people, with an increase in the number of visitors and tourists. The results and activities of the project will have positive impact to all local residents, visitors, tourists as well as providers of services in tourism.
Planned total budget of the project	1 025 348,71EUR
Requested EU contribution	922 813,83EUR
- % of total eligible cost of Project	100,00

<sup>&</sup>lt;sup>6</sup> Section 2.1.3 (c) in the Guidelines for Applicants: the projects can be either integrated (where each partner carries out a part of the activities of the joint action on its own territory) or symmetrical (where similar activities are carried out in parallel in the eligible territory of two or more countries)

<sup>8</sup> Section 2.1.3 in the Guidelines for Applicants

<sup>&</sup>lt;sup>7</sup> Infrastructure refers to a set of works, activities or services intended to produce physical assets such as roads, bicycle lanes, bridges, buildings (e.g.: rehabilitation of a bridge or building 3 km of bicycle lanes). Soft with infrastructure component comprises of a mixture of works, activities and services that include both non-physical and physical assets (e.g. new rules, policies or training for emergency intervention together with rehabilitation of a building that would host the intervention team and equipment). Soft: a project in which the project's activities produce results that are not necessary tangible. A soft project starts with an idea and results in specific accomplishments that are distinguished from the initial situation (e.g.: capacity building, sharing best practice, setting up a network, writing a research, etc.)

#### 1.5. Partnership

#### 1.5.1. Composition of the Partnership

Jakubová Voľa village is located in Sabinov district and despite it has only 413 inhabitants it is an important administrative, economic, cultural, recreational center of the region. It manages elementary school and kindergartne, which significantly increases the quality of life in the village. The village is very active in supporting many cultural and social events. The village has sufficient technical and administrative facilities to be able to implement the project with an extent. The village has experience in organizing cultural and social events with international participation, has experience in improving and creating conditions for the creation and development of cross-border cooperation in the field of support and protection of cultural heritage with elements of tourism development. For experience with the implementation of projects and grants financed from EU funds, the partners decided to retain the role of lead partner.

The second partner is the Velkyj Bereznyj village council in the Transcarpathian region, located near the Slovak border, which has about 6650 inhabitants. It has financial and institutional stability and sufficient capacities and human resources to be able to ensure the project is functioning both in the implementation and the operational phase of the project. As a village council close to the Slovak-Ukrainian border, it forms an important center of cross-border activities.

The third partner of the project is the Ukrainian foundation "Centre for Civic Initiatives Charitable Foundation Charitable" from Perechyn, located in the Transcarpathian region of western Ukraine. There are many nationalities in the town of Perechyn, including the Slovaks and Hungarians. The city is often visited for the surrounding natural and cultural beauty. The partner has many experience in different thematic areas and also has technical and administrative background for project implementation.

#### 1.5.2. Arrangements among Partners / beneficiaries

The partners will work together on implementation of the project, in such a way to fulfill the main project goal and make the best use of the potential of the Slovene-Ukrainian border. Each partner will be responsible for implementation of their own project tasks and for their financial side. The Lead Aplicant will be responsible for overall project implementation, who will also be responsible for the financial side of the project and the distribution of funds among the individual partners. The partners will regularly communicate and actively participate in the implementation of the project. The project partners selected the persons, who will be involved in the implementation of the project and will communicate regularly with each other. On the Slovak side, Jakubova Vola will take over the implementation of the project and the Velkyj Bereznyj village council will be on the Ukrainian side.

#### 1.5.3. Task distribution/identification of roles during the project implementation

Joint development - Project partners have started working on the idea of the project in the past. So far, there was several preparatory meetings where the partners have defined individual project tasks, its budget as well as the timetable. Partners also organized personal meetings during the preparation of the project, the partners regularly communicated by email and by phone.

Joint Implementation - The Partners will proceed together to implement the project in such a way as to make the best possible use of the potential of the border to develop it. Each partner will be responsible for the implementation of his / her tasks in the project while helping to implement the activities of other partners. The implementation of the project as a whole will be the responsibility of the Lead Partner who manages the implementation of its activities while monitoring the implementation of the other partners. The joint implementation of the project will, in addition to personal meetings, also be based on regular communication, ensuring the smooth running of the project.

Joint Staffing - Each partner will designate a project team for the implementation of the project, consisting of people with sufficient experience and knowledge to implement such a project. Everyone working on the project will communicate and collaborate on a regular basis to carry out the project tasks and help each other. Joint financing - The budget of the project was drawn up taking into account the financial possibilities and individual needs of the partners. During the process of creation the budget was putting great emphasis on economics and economy. The financial affairs of the project will be managed by a lead aplicant who, after receiving ERDF reimbursement will redistribute funds between all partners.

# 2. Project Description

# 2.1. Overall objective of the Project

The main objective of the project is to increase and promote awareness of rich cultural heritage through a renewed infrastructure that will contribute to natural development and will have a positive impact on the preservation and development of the cultural values of the Slovak-Ukrainian border as well as on the increased number of tourists and visitors. Partners will create and strengthen the technical, infrastructural and institutional background and put a founding stone to new intense cooperation on which partners can build their soft activities, promote the intangible cultural heritage and develop joint partnership. At the same time, we will contribute to the overall objective of the Program, which is to support local culture and preserve historical heritage.

## 2.2. Please describe the specific objectives of your project.

- 1. Improvement of infrastructure for the presentation of cultural heritage
- 2. Raising awareness of the cultural heritage and traditions of the Slovak-Ukrainian border

	Intervention logic	Indicators	Sources and means of verification	Assumptions (What other conditions must exist?)
Overall objectives	To increase and promote awareness of rich cultural heritage through a renewed infrastructure that will contribute to natural development and will have a positive impact on the preservation and development of the cultural values of the Slovak-Ukrainian border as well as on the increased number of tourists and visitors	1. Raising number of visitors of reconstructed areas from 0 to 1000 2. Increase number of visitors, tourists in cross- border region by 2%	<ol> <li>lists of participants, evidence lists, photo documentation</li> <li>Statistics of Slovak Republic and Ukraine</li> </ol>	n.r.

# 2.5. Preconditions, transferability and sustainability

# 2.5.1. Preconditions and assumptions

The main assumption for the sustainability of the project during its implementation is a quality and qualified project team that will be involved in its implementation. The project team will be made up of experts with experience and knowledge so that its members are able to solve unexpected problems or situations. Members will communicate and collaborate on a regular basis, so that the project goals are achieved in accordance with the project budget and timetable. The smooth implementation of the project will also be ensured by a strict selection of suppliers and service providers, so as to avoid the risk of late or poor quality service. After the end of the project, its sustainability will be ensured through the distribution of promotional materials about the project, which will be freely accessible to all without distinction. The newly created infrastructure will also serve after the end of the project for the presentation and preservation of cultural and social values.

### 2.5.2. Dissemination, capitalisation and possibilities for replication and extension

In the context of the sustainability of project - outputs and outcomes, partners will primarily focus on promotional and information activities that will seek to keep awareness of the project after its completion. Through the promotion and dissemination of information on the possibilities of using the cultural heritage, they will try to keep the results and outputs of the project even after its completion. Information and promotion will be secured through each partner's website, through information centers - distribution of promotional materials, information boards and memorials at project sites or through local media. Thanks to huge amount of information activities we assume that the third non-directly associated groups will learn about its outputs and results.

### 2.5.3. Financial and institutional sustainability of the project

For the institutional sustainability will be responsible all the project partners. All project outputs will remain in property of the partners who will responsible for them. Their role will be also financial support of sustainability of outputs or possibly bearing the cost of sustainability. If the project will be successful and the main condition will be accomplish - obtaining non-repayable financial support, individual project activities will be funded from EU sources as well as from own resources. The partners are prepared to finance the costs incurred in the project from their own resources both during and after the project implementation. Within their institutional budgets, have been created sufficient financial reserves to cover any unforeseeable expenditure. All promotional activities and outputs will be freely available for everyone without any difference after the realization of the project. After the project ends, partners will also inform about their implementation on their websites.

# 3. Relevance of the Project

# 3.1. Relevance of the project to the Programme's thematic objective/priority.

The project is in accordance with the Thematic Objective 3: Promotion of local culture and preservation of historical heritage. The main idea of the project is to support the development and preservation of the rich cultural heritage of the border. Our goal is to create dignified conditions for the development and preservation of tradition, cultural and social values. There are many cultural and historical monuments on both sides of the border, which represent an enormous potential for the creation and development of tourism in the Slovak-Ukrainian border. Project further develops the Priority 1: Promoting local culture and historical heritage along with tourism functions and tries to develop the eligible area as a joint tourism destination based on its cultural, historical and religious values.

### 3.2. Territorial needs, problems and challenge of the target countries, regions and/or

The Prešov Region is located in the northeast of the Slovak Republic. It is the second largest region in Slovakia. The seat of the county is Prešov. Zakarpathia region is an area in west of Ukraine. It is the only Ukrainian region that borders four states - Poland, Slovakia, Hungary and Romania. Slovak-Ukrainian cross-border region has very rich cultural heritage and big potential to develop it. There are many cultural objects, areas, touristic areas, attractions. Despite the fact the area has big tourism potential it suffers its own specific socio-economic problems. Poor socio-economic state of this area even makes people to leave the region for work and thus losing the connection to their heritage. Project tries to solve this problem by creating the solid background to support cultural activities in the region and to strengthen the organization of cultural events among partners which will attract tourists and visitors to the area and thus support the economic growth and tourism in crossborder region.

### 3.3. Analysis of the problems and needs the project's addresses.

Despite the fact that the Slovak-Ukrainian border has huge potential for development and creation of turism, the area suffers from classical shortcomings, including poorly built tourism infrastructure, the lack of cross-border educational and cycling routes and trails, weak and often insufficient protection and conservation significant cultural monuments or poor promotion of the natural and cultural heritage of the border. Infrastructure to support tourism is often in a very poor state and its restoration is inadequate and incomplete. Significant cultural monuments are often only superficially reconstructed, but their further development and sustainability is almost never secured. We also see a huge minus in very low promotion and awareness. Many visitors and tourists often only accidentally find out interesting tourist locations and locations that have a tremendous significance for both our past and the future. All these aspects significantly impede the natural development of the region. Village Jakubová Voľa and the cities Velkyj Bereznyj and Perechyn represent two important cultural and social centers of the border, which are frequently visited mainly for the surrounding nature and rich tradition in the preservation of the cultural heritage. Thanks to the rich cultural heritage and the link to local traditions, we would like to draw attention to the cultural legacy of the society through the project and transfer and promote it to the present generations. Our goal is to develop the territory as a common tourist destination based on cultural, historical and social values.

# 3.4. Project's approach in addressing the identified common problems and needs

Our goal is to develop the territory as a common tourist destination based on cultural, historical and social values. Through this project, we would like to contribute to making the border heritage more attractive and appreciated and also to contribute to the strengthening of cultural values that are relevant to the region. The long-term goal of the project is to create the right conditions for creating and developing a new tourism offer along both sides of the border. We would like to achieve this through joint cultural and social events through joint cross-border promotional activities as well as creating suitable conditions for the further development and preservation of the cultural heritage of the border, which will increase the interest of tourists and visitors in the area and also make full use of all cultural and tourism potential of the territory.

### 3.5. Cross-border cooperation approach in achieving the project's objectives and results

Cross-border cooperation is key for achieving the objectives of the project. Without the cooperation and partnership of all partners, the project would not have been created. Without the participation of both Ukrainian partners, it would not be possible to cover so much territorial part of the Slovak-Ukrainian border. Cultural heritage represents an important joint contribution to the region, which forms the basis for the development of cross-border cooperation and consequently for the development of tourism. By implementing this joint project, we would like to highlight added value, which is, in particular, the presentation of the cultural heritage and the tradition of the wider society, its temporal and spatial link, and the similarities of cultural processes in the cross- border region. Realizing individual activities independently without the participation of all partners would be complicated or even impossible. No joint exchanges and events could ever be realized. The partners in the joint realization of the project will gain a broader reach for the creation of activities to support and develop tourism. The activities of the project will focus on the development of cultural and historical heritage and tradition. Partner co-operation is a basic prerequisite for successful achievement of project goals and research, which was also the main motivation for the preparation of the project.

## 3.6. Target groups and final beneficiaries

The project includes several target groups. The results and activities of the project will directly affect all local residents on which results will have a positive impact and effect. The second target group of the project will consists of all visitors and tourists who will decide to use the rich tourist offer of the regions. We mostly count on tourists from border regions who are interested in the region's natural and cultural heritage as well as local traditions. Last but not least, the project will also affect local service providers. Local communities will be able to create their own cultural offer based on regional resources as well as the specific needs of tourists around the project implementation sites. The project will reduce barriers and through the organization of joint cultural events will make it easier to get to know the cultural heritage of the neighboring state. The goal of the project is to create interest in tourism products.

### 3.7. Analysis of the effects of the project on the cross-cutting issues

#### 3.7.1. HIV / AIDS

Not relevant

#### 3.7.2. Gender equality

The project guarantees equal opportunities for both men and women at all stages of its implementation. Both men and women participated in the preparation of the project. All outputs and results of the project will also be available for both sexes without any limitations.

#### 3.7.3. Democracy and human rights

Democracy and human rights - all project activities were planned in accordance with the principles of democracy and human rights. All activities, outputs and results will be available to all without any limitations. Everyone will also have the right to participate in organized cultural and social events. The cross-border nature of the project will ensure the right to free movement and movement of persons.

#### 3.7.4. Environmental sustainability

Project activities have been planned in such a way that they do not in any way disturb the environment. All investment activities will be implemented in accordance with the permits and regulations. All construction works and modifications will be carried out in accordance with the law. Partners are committed to contributing to environmental protection and will therefore prefer environmentally friendly materials and practices to all project activities.

#### 3.8. Relevance of infrastructure component within the cross-border context

Jakubova Vola part infrastructure component consist of reconstruction of multifunction and cultural centre, which is very important for the preservation and development of cultural heritage and local traditions. JV is really missing such a place for the cultural events, performances of artists, meeting of youth, presentation days and many others. New object in this area could bring also new opportunities and possibilities for development of tourism in this area – and we think this is the reason why CBC should financed the infrastructure component in Jakubova Vola.

Velkyj Bereznyj part infrastructure component conisist of strengthening the shores of Termachuv stream and building crossings and passages through the stream in very famous tourist and recreational area for holding cultural and educational events. The Termachuv tract is very popular place among domestic and foreign tourists. Through this territory passes the marked tourist route to the historical tourist shelter on the mountain Javirnyk. Small construction works are implementing every year, but they are almost not visible, so if we want to save this touristic area we need more sources and this is the reason why CBC should financed this repair.

CF CCI part infrastructure component consist of repairing roof of the Lemky museum. This museum is one on Ukrainian and Slovakian area – so it should be financed by CBC because it's repairing will give new possibilities for tourism in Perechin rayon and border locations and will save big unique historical memory about one of the ethnics that lived on such territory.

### 3.9. Cross-border effect of the infrastructure component

On the reconstructed areas will be organized cultural events not only of local importance but also of cross-border. Many visitors and tourist will come to visit new places, this will have a positive effect on the development of culture and tourism on both sides of border. Cross-border relations between neighboring countries will be strengthening.

# 3.10.1 Avoiding double financing

No.

### 3.10.2 Avoiding double financing

Activity 1.1.	Activity 1.1. Recording of common CD		common mu together wit to Lead apli days. During record comm joint cooper and accome	nt will be responsible for releasing of usic CD, which will be recording h all partners. Each partner will come cant with folklore ensamble for 3 g 3 days artists form all partners will mon CD, which will be great output of ation. Costs of boarding (45 persons) odation (30 UA participants) will cover nt. Costs for transport will cover each

Activity 1.2.	2 cultural events in Perechyn	Aplicant 2 is responsible for the organization and carrying out of the exchange folklore trip - inviting partners, organizing catering for 45 participants and accomodation for 30 participants for 3 days and 2 nights. The idea of the event is to learn more about the folk culture - clothing, dance, singing, traditions, language. Aplicant 2 is also responsible for the inviting, boarding and accomodation partners for the event organized as a Christmas festival in Perechyn. Christmas festival take place in the city centre where various music performances are presented. Visitors can also see a great showcase of local traditions and typical products. The idea is to present local traditions and customs during the christmas time. Part of the event will be presentation of the reconstructed museum in Perechyn. Aplicant 2 will be responsible for organizing both events.
Activity 1.3.	Folklore festival	Aplicant 2 is responsible for organization and carrying out of the cross-border folklore festival - inviting partners, boarding for 15 participants from 4 ensembles for 2 days, accomodation for participants, PR materials The ideas is to present folklore ensembles and their art. We want to present folklore music to wide masses.
Activity 1.4.	Opening ceremony of the cultural centre	After the reconstruction is completed lead aplicant will organize opening ceremony of new reconstructed cultural centre where all the partners will come and visit new centre. Part of the event will be also performance of local folk ensemble and presentation of local cultural heritage to other partners. Lead aplicant is planning to invite local stakeholders from the region who will be ready to make new connections and friendships with partners from Ukraine what will have positive impact for their possible future cooperation in a field of preservation and promotion of cultural heritage. Costs of boarding and accomodation of UA partners will cover lead aplicant. For this purpose Lead Aplicant plann to ensure equipment which is necessary for the realization (sound, mobile stage, tent with accessories). Costs of transport will cover each partner separatly.

Activity 1.5.	Presentation day	Aplicant 1 is responsible for organization and carrying out of the "Presentation day" in newly developed touristic area called Termachuv tract near city Velkyj Bereznyj. Aplicant 1 is responsible for inviting, organizing, boarding (60 participants) and accomodation (40 participants) for 3 days. The main idea of the event is presentation of local culture and tradition through the performance of folklore ensembles, through the presentation of folk crafts or traditional cuisine. Part of the event will be a joint performance of folklore ensebles of all partners. Partner also plan to ensure movable roofed stage necessary for presentation of performances.

# **Outputs of activities**

	Title of the output	Brief description of the output	Corresponding activity(ies)	Target value
Output 1.1.	Cultural events	During the implementation of the project will be organized 5 cultural cross-border events.	1-5	5,00
Output 1.2.	CD	3000 pieces of common corss-border music CD will be release.	1	3 000,00
Results				
Result #	Results title	Please provide a brief description of the results emerging from this AG	Programme output indicator or other indicators to which the result will contribute	Target value
Result 1.1.	Raising awareness of cultural heritage	Organization of all events will contribute to raising awareness of cultural heritage of cross-border area. All events will be open for wide public what will have positive impact for presentation of cultural heritage. Also new recorded CD will be disseminated for wide public.	Number of crossborder cultural events organised and touristic products developed using ENI support (COI8)	3 275,00

Detailed risk analysis and contingency plan

Before each event was planted, all partners considered possible risks and took action against their occurrence. We do not anticipate the occurrence of economic, social or political risks. Since many events will take place outside the biggest risk we consider is bad weather that the partners tried to avoid by planning events for the summer period.

Another possible risk is the incorrect choice of supplier, which the partners will try to avoid by thorough market research and public procurement in accordance with the law. We also see a low risk in low interest of target groups, which will be minimized by carefull approach to target groups, their engagement in events and thorough publicity actions.

# AG 4 - Infrastructure

Activity Group (AG) 4	Title	Total AG indicative budget
4	Improving the infrastructure	808 806,99
Responsible Applicant(s)	Jakubova Vola village Jakubová Voľa	
Applicants' involved	Jakubova Vola village Jakubová Voľa Velkyj Bereznyj village council	
	Velykobereznianska selyshchna rada Charitable Foundation "Center for Civi Blahodiinyi fond "Tsentr hromac	

All the aplicants are ready for realization their infrastructure components. In accordance with the law of each country they obtained all necessary documents, technical documentations, budget, all repair agreements, permits.

#### Location of the infrastructure

Lead Aplicant - location of the infrastructure - Jakubova Voľa, Prešov region, Slovakia Aplicant 1 - location of the infrastructure - Termachuv tract 2 km from Velkyj Bereznyj, Ukraine Aplicant 2 - location of the infrastructure - Zarichevo village and Perechin town of Zakarpatska oblast, Ukraine

#### Detailed risk analysis and contingency plan

On the Slovak side we see low level on any mentioned risk. Lead aplicant was prepared for any type of risk which could possibly appear. Lead aplicant see the biggest risk in not getting the funds from CBC in case the aplication wouldn't be successful, because such a small village hasn't enought resources to cover such a investment. Another possible risk may by delay of reconstruction works, which would be eliminated by the precise selection of suplier on the basis of public procurement. Because the investment is in the ownership of lead aplicant we didn't expect any other risks. If some problem shows, partner is ready to manage it.

On the Ukrainian side we see little risk in economic field, because of internal economical problems in Ukraine and also we see low risk in changing prices which was set, because of the changing EUR rate. There is also low political risk because of doings that have taken place recently in Ukraine, but we don't think it could has any impact on this project at all. Ukrainian partners are also ready to fight with any problem which could appear.

#### Other information.

n.r.

#### Description of the infrastructure(s)

Lead Aplicant - infrastructure component consist of construction works, technical works, architectural works necessary for reconstruction of the cultural centre. Structural and technical solution consist of - the structure, structural and technical solutions, static properties, water mains and sewage system piping, heating, electric Installations, gas Installations. Since it is a large investment, all the detailed descriptions of the individual works are in the project documentation. For the reconstruction works will be used modern technologies which dont have negative impact for the enviroment, also waste from all works will be disposed in accordance with legislation. Reconstruction in such a way will bring new possibilities for preservation and presentation cultural heritage of the region. Costs of the reconstruction - 615 719. 99€

Aplicant 1 - infrastructure component consist of construction and strengthening the stream's banks which are in bad conditions. Two wooden bridges present the passage across the stream to this venue, but hey are in poor condition and do not meet the safety requirements. Also strengthening of the banks is supposed to be done with gabion boxes. Reinforced concrete slabs P-6 (?-6) shall be used for the construction of passage. The slabs will be laid on pallets placed on a gabion wall. Costs of the reconstruction 164 100€.

Aplicant 2 - Reconstruction works of rayon ethnographic museum "Lemkivska Sadyba". Creating drainage around the perimeter of the building, plaster repair of smooth facades of the building, repair of a straight part of a wooden handrail and repair of the foundation area by conducting concrete stonework. Costs of reconstruction of the roof - 10150€

#### Sustainability of the infrastructure component

All the investments in the project were designed to preserve cultural heritage and development of tourism, therefore it will be the goal of all partners to maintain the individual objects after the end of the project and to take care of them so that they continue to serve a wide range of people. Repair works will only help to attract more tourist, so it will be good condition for finding more sources of supporting its activity in local government and spreading information about it.

Activity 4.1.	The repair of the museum "Lemkivska Sadyba"	The repair of the museum "Lemkivska Sadyba" (is located in Zarichevo village of Perechin district) - involves interior works in the building of the museum. The last repair was carried out more than 20 years ago and today needs to be renewed. Added documentation includes technical overview on what should be reconstructed and changed and costs of needed works and materials. For this investment is responsible Aplicant 2.
	Reconstruction works of rayon ethnographic museum "Lemkivska Sadyba"	The "Lemkivska Sadyba" Museum was founded in 1985. It is located in one of the authentic Lemko settlements (1902), which is located on a separate hill, with a magnificent landscape of the Uzhansky valley. The house recreates the interior, typical of Lemko's housing of the early twentieth century. For tourists, they represent a folk song with folk texts, jokes and dances.
		In 1988 the museum was awarded the title "People's Museum". Visitors to the museum are frequent visitors from the USA, Canada, Hungary, Romania, Germany, Slovakia, Poland and other countries. The reconstruction of the museum will will save the museum from the destruction of the fundamental part, will help to create a drainage system around the building, update the facade, which will ensure the sustainability of its activity as a outstanding tourist place of Zakarpattya
		oblast. Here the interior, typical of Lemko's habitation of the early twentieth century, was reproduced. The complex includes: a living part (a carnival, a porch and a storeroom) and utility rooms (stodolah, hills and a rattler), located in one row, under a common roof. It is this type of building that is typical of the ethnographic group of Lemkos.

Activity 4.3.	Investment "Termachuv tract"	The main idea is to constructed and strengthening the stream's bank in the recreational territory called Termachuv tract. The current state is unsatisfactory. The stream Termachuv, which banks are often eroded, flows through tourist and recreational territory. When refining the territory, that appeared the need for the stream's watercourse regulation and strengthening of its banks. The tourist and recreational territory also includes venue for cultural and artistic events with installation of a mobile scene. Presently two wooden bridges present the passage across the stream to this venue. Existing bridges are in poor condition and do not meet the safety requirements. To have safe crosswalk and passage across the stream there is a need for their construction and strengthening the stream's banks. For this investment is responsible Aplicant 1.

#### Detailed risk analysis and contingency plan

We can expect some risks connected with people - project team, but because project team was chosen properly almost all risks was eliminated at the biginig. We build skilled project team with many experiences and knowledges from previous project implementation. Competent and adequate project team was selected, to fulfill every task on time, deadlines for all activities will be set and work progress will be controlled through working meetings, internet communication and permanent contact. We don't expect any seroius problems. If for example one or more members of project team fall sick, other members are ready to take over their responsibilities. Or for example if some person quits another one will be hired as soon as possible.

#### Monitoring and evaluation arrangements

#### Internal monitoring:

Attendance records - From every meeting of project team or other activity which involves target groups, project staff or other stakeholders, attendance records will be worked out.

Minutes of Kick-off Meeting, co-ordination meetings and Final Conference - From every such an event minutes will be worked out. Minutes will serve for simple and effective control of the project progress and will contain actual advance and tasks for the remaining parts of the project.

Internal control of finances at the partner organizations.

Internal monitoring at the partner organizations aimed at regular gathering of physical and financial data on project implementation, activities that were carried out, payments and achievement of objectives.

# **Communication Plan**

Target audience.

The main targert group of the project will be the common public - mainly local inhabitants of the cross-border region, tourist, visitors, stakeholders.

Project specific objective.

1. Improvement of infrastructure for the presentation of cultural heritage

2. Raising awareness of the cultural heritage and traditions of the Slovak-Ukrainian border

Improvement of cultural infrastructure of cross-border area will make better conditions for presentation and preservation of cultural heritage through widen possibilities of promotion activities. Creation of various events, PR materials, publications and it's dissemination through different chanels can reached wide target group. A bigger target group can be reached by the idea of cross-border cooperation thanks to common cross-border comunication actions.

Outputs and results for communication activities.

Outputs of communication activities:

- Kick-off and Final conference 2 conferences will be organized
- Book publishing 1 book will be published
- Movie about Lemky's history 1 movie will be created
- Leaflets, PR materials 3000 leaflets will be created and published
- Promotional articles in local media 3 articles will be published in local media of each partner
- Cultural events 6 cultural events will be organized
- Results of communication activities:

- Number of visitors and participants of conferences and cultural events - we expect about 320 invited participants and about 1000 uninvited participants who will participate in events

- Number of persons reached by the PR materials and leaflets, book - we expect that PR materials will be disseminated among 3500 persons

Messages for each target audience.

Message for the target audience:

Don't forget the cultural message of our society through revival of our traditions.

Financial and human resources (In house and subcontracting)

Inpust for the articles in local media and texts for the PR materials will be created by project team. All the others comunication activities such as kick-off and closing conference, book publishing, all the cultural events, printing of PR materials, promotional and memorial tables, the movie about Lemkos history will be subcontracted. The planned budget for all printed communication activities/materials: 9 040€ Costs of the conferences and cultural events such as accommodation for guests, meals, rent of services, etc. will be subcontracted.

**Communication tools** 

We planned to use websites of each project partner, articles in local media, PR materials - leaflets, promotional and memorial boards, several cultural events where media will be invited and public will be informed about project and its objectives.

Communication objectives.

1. Sharing knowledge about cultural heritage and traditions of cross-border area.

Calendar of communication activities.

- 1. Kick-off conference is planned at the begining of the implementation of project.
- 2. Movie about Lemky's history is planned during the first 6 months of the project.
- 3. Promotional leaflets are planned during the first 6 months of the project.
- 4. Book publishing is planned in 6th month of second year of project.
- 5. Cultural events will be organized according to the time plan during the whole implementation of the project

**Communication Activities** 

Activity 6.1. Kick-off conference	The Kick-off conference will be prepared and carried out by Lead Aplicant after the beginning of the project. The Conference will present activities, time plane, goals and expected results of the project. The idea is to present our project to wide range of people to local stakeholders, partners and media representatives. Costs for the boarding and accomodation of participants will cover Lead Aplicant. Costs of transport will be cover by each partner separatly.
-----------------------------------	---

Activity 6.2.	Book publishing	Aplicant 1 will be responsible for publishing and disemination of newly created book of life of Lemkos. The book will decribe everyday life of Lemkos their customs, traditions, language, cuisine and many other. Book will be written as "script" for a drama. Partner is also planning to make a theaterplay as part of performance during the Presentation day in Velkyj Bereznyj. Book will be in 3 languages and all the costs of the publishing will cover Aplicant 1.
Activity 6.3.	PR activities	The activity consist of various promotional actions such as promotional articles in local media, leaflets, information on the website of the partners. Each partner will be responsible for implementation of its activities. All the PR materials and information will be in accordance to program publicty rules.
Activity 6.4.	The movie about Lemkos history	The movie about Lemkos history will consist story about their life, culture, traditions, language, location of existing. Movie will show how usual day in simple Lemkos family was conducted. Movie should have 40 minutes and will be done in 3 languages. It will be perfect example of preservation of traditions and cultural reference in our society. Aplicant 2 will be responsible for this acitivity and also will cover all the costs.
Activity 6.5.	Final Conference	The Final Conference will be prepared and carried out during last two months of project implementation by Lead Aplicant it will take place in Jakubova Vola. 20 participants from Slovakia, 40 participants from Ukraine, local authorities, mass media will be invited to the conference. Holding of the final conference will secure visualization of the project, its activities, results outputs and outcomes of the project to the wider public, partners, visualization of new infrastructure components, disseminating of PR materials, establishing of cross-border contacts among the guests. For all the costs except transport will be responsible Lead Aplicant.

Name of the Programme	Regional operational program
Title of project	Revitalization of the center of the municipality of Jakubova Voll'a aft
Sector	House regenerating
Location of the project	Jakubova Vola village
Total budget	255 965,72
Managed budget	13 236,26
Role in the Project	Applicant
Project duration	24
Short description of the project	I

The main objective of the project was the revitalization and rehabilitation of the municipal public sphere following the elimination of the consequences of the floods in 2010. Reconstructed 0.96 km of local roads, 1,661 m2 of green, trees planted, tiny architecture, bicycle racks, baskets, benches, 27 light points, the main bridge over the local stream in the center of the village. Through the realization of the project, the inhabitants of the village make a lasting benefit from realized activit

Name of the Programme	Expanding and Maintaining the capacity of kindergartens
Title of project	Expanding and Maintaining the capacity of kindergartnes
Sector	Education
Location of the project	Jakubova Vola village
Total budget	61 334,13
Managed budget	31 334,13
Role in the Project	Applicant
Project duration	12
Chart deparintion of the project	1903 - 515335

Short description of the project

A substantial part of the reconstruction was to make premisses of the kindergarten operational, as well as the exchange of sanitary, heating and electrical installations. Reconstruction has created separate operations for the running of the kitchen and kindergarten. The capacity of the kitchen, bedroom and sanitary facilities for children, as well as for staff has increased.

 $\label{eq:Financial} Financial capabilities of the Lead Applicant organisation will be clarified in the Annexno. 7.$
## 2. Applicant 1's Profile

Name of the organisation in EN	Velkyj Bereznyj village council
Name in original language	Velykobereznianska selyshchna rada
Nationality	Ukraine
Legal Status	Public
Organisation ID	04351127
Postal address	Ukraine Zakarpattia Velkykyj Bereznyj 89000 Ševčenka 12
Contact person	Mr. Bohdan Kyrlyk
Contact person's availability (email; phone)	bogdankyrlyk@gmail.com +380954841508

Experience with similarprojects

Name of the Programme	Norwegian Financial Mechanism and State Budget of the Slovak Republic
Title of project	Project – Partners's bourse of development of local employment
Sector	Cross-border cooperation
Location of the project	Velkyj Bereznyj
Total budget	84 950,27
Managed budget	8 384,00
Role in the Project	Partner
Project duration	22 terphysic begans

Short description of the project

The project was aimed at developing employment among the most vulnerable groups of unemployed people in border regions - Roma and young unemployed, who generally leave the region. Direct benefit for these target groups is their regular participation in employment exchanges where they will directly contact employers and inform about opportunities and ways of employing where they will be inspired to start their own businesses.

Name of the Programme	Norwegian Financial Mechanism and State Budget of the Slovak Republic
Title of project	Monitoring of climatic conditions and roads negotiability in the Slov
Sector	Cross-border cooperation
Location of the project	Velkyj Bereznyj
Total budget	149 225,00
Managed budget	2 710,00
Role in the Project	Partner
Project duration	15

Short description of the project

The implementation of the project was influenced by all target groups, residents of the adjoining area as well as visitors to the cross-border area. The current traffic information and road traffic flow is unsatisfactory, therefore the project was aimed at improving the flow information on road and traffic safety.

Name of the Programme	Norwegian Financial Mechanism and State Budget of the Slovak Republic
Title of project	Ubľa-VelykyjBereznyj-Informationdoesnotknowtheboundaries
Sector	Cross-border cooperation
Location of the project	Velykyj Bereznyj
Total budget	142 755,22
Managed budget	11 060,00
Role in the Project	Partner
Project duration	20

Short description of the project

The importance of the project was to improve the flow of information concerning the Slovak-Ukrainian borderarea. The project goal was to raise awareness of the cultural, social or tourist possibilities of the border.

Financial capabilities of the Applicant organisation will be clarified in the Annex no. 8.
